

Albert Einstein Academy Physical Education 2014 -2015 Syllabus SCV Site

E Backpack - Submissions & Written Journal Entry

AEA Scholars will enter into their E-back Pack portal. There will be a video link for the students to watch first. After the students watch the video, they will get an opportunity to answer subjective questions pertaining to the video subject. AEA Scholars type in their responses into the electronic site first (I recommend using Word to correct any grammatical errors). Lastly, after the students populate their answer online, they transfer the information to their journal books. We expect written Journals to be written neatly and well organized with the date & subject on the top of the page.

AEA scholars can earn 5 points each week, totaling 15 points per month.

Assessments

The assessments are compiled of two forms Monthly.

1. Multiple-choice questions are completed online in the E back –Pack.
2. Skills observation “Checklist” – the skills observation check list is performed during class time. Dr. Hazel will group the students and have them perform the skills. The check -list is a simple. yes / no grid that identifies cues to preform the task. We are setting your child up for success, so a “no” can only be granted if the AEA Scholar refused to preform the skill.

Participation / Effort / Sportsmanship – Daily 3 / Weekly 15

Daily AEA Scholars will receive 3 points for their “Participation /Effort / Sportsmanship” grade, a total of 15 points weekly. AEA Scholars are expected to participate, and showing effort & sportsmanship as they perform the activities. AEA Scholars are exempted from participating and showing effort in the activity, if they have a Doctors note that limits their physical ability. Sportsmanship is always expected along with turning in an additional written assignment to acquire the 3 points per day.
